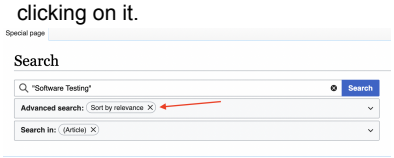
Exploratory Testing Charter

<table>
<tr><td>Tester</td><td colspan="2">Mohamed Mahran</td></tr>
<tr><td>Start Date</td><td colspan="2">24-03-2022</td></tr>
<tr><td>Duration</td><td colspan="2">Short (30 mins)</td></tr>
<tr><td>Scope</td><td colspan="2">Testing of Wikipedia search page</td></tr>
<tr><td>Test Ideas/Notes</td><td colspan="2">● Exploring all UI Stuff on different web browsers e.g chrome, safari, firefox on different devices.
● Check any errors/warnings thrown in the log console.
● Verify that when a user types a query, the system generates auto suggestions as you type.
● Enter more than the maximum number of 255 characters is not allowed.
● Verify no results are returned when the user enters no value/space and clicks on the ‘Search’ button.
● Verify results displayed are relevant to the user’s search query.</td></tr>
<tr><td rowspan="2">Defects/Bugs</td><td>Search result section</td><td>- Searching by “Über”, returns unexpected result like “uber”</td></tr>
<tr><td>Advanced search section</td><td>- Preview sorting by button is clickable however it doesn’t make anything when clicking on it.
 


- Advanced search section is not displayed on mobile view.
- Sorting by creation date is not working as expected.</td></tr>
<tr><td>Improvements</td><td colspan="2">- Search button should not be clickable when no search keyword is entered.
- Under the Advanced search section, add an option to sort in ascending/descending order.
- Under Search in section,
● Remove curved brackets of the Article option, to make it consistent with the other options.
● Rename Default checkbox label to be Article to make it clear to the user.
- Adding search by voice/image</td></tr>
